EDUCATION

Grambling State University, GPA: 3.91

Expected May 2027

Bachelor of Science, **Computer Science**, minor in **Business Management**

Relevant Coursework: Discrete Structures, Calculus I, Calculus II, Prob & Stats I & II, Computer Architecture, Data Structures and Algorithms, Intro to Artificial Intelligence

SKILLS AND CERTIFICATIONS

Languages/Frameworks: Python, C++, HTML5, CSS, JavaScript, TypeScript

Tools: Git, GitHub, Jira, NetSuite, MongoDB, PostgreSQL, Prisma, Microsoft Office (Excel, PowerPoint)

Frameworks: Node.js, Tailwind CSS, Express.js, React.js, Flask, Bootstrap, Shaden UI, NumPy, Pandas, Matplotlib

EXPERIENCE

Software Engineering Intern | *Meta Platforms Inc.*

June 2025 – Present

- Accepted into Meta University SWE Internship Program from ~15,000 applicants (<1% acceptance rate).
- Developing a full-stack web application using React.js, focusing on studying & productivity for college students.

Platform Engineering Intern | *Netskope*

July 2024 – August 2024

- Deployed server certificates across Netskope's infrastructure to streamline access control for engineering teams.
- Authored onboarding documentation covering Vault pathing and authentication workflows.
- Wrote shell scripts to automate permission tasks, cutting manual workload and reducing support response time.

PROJECTS

bump | **UC Berkeley AI Hackathon** | [GitHub](#) | [Demo](#)

React.js | *MongoDB* | *Google Gemini API* | *Vapi API*

- Led backend development for a full-stack AI prenatal care assistant offering trimester-specific health nudges, symptom tracking, and weekly to-do lists.
- Integrated Gemini API for context-aware pregnancy guidance and dynamic care planning based on user input
- Enabled voice interaction using Vapi API, including phone-based access to the AI assistant for real-time support

Mutual Fund Calculator | **Goldman Sachs ELS Competition Winner** | [GitHub](#) | [Demo](#)

Dallas, TX

- Built the full frontend using React.js, allowing users to estimate returns based on 15+ years of S&P 500 data
- Assisted in backend integration of St. Louis FRED and Newton Analytics APIs for fund-specific beta and volatility metrics
- Designed an interactive React line chart to visualize potential fund performance over time

Trading Strategy Simulator | [Github](#)

Python | *Pandas* | *Matplotlib* | *Yahoo Finance API* | *Tkinter*

- Developed a stock trading simulator to back test strategies using all historical data and visualize performance.
- Implemented a dual-SMA crossover algorithm (50/200-day) to simulate buy/sell signals—mimicking institutional trading models.
- Built a Tkinter-based GUI enabling users to enter stock symbols, visualize SMAs, and simulate portfolio performance over time.

EduLingo | **GramHacks Hackathon Winner** | [Github](#)

Flask (Python) | *HTML/CSS* | *Javascript* | *Git*

- Built a full-stack language translation platform using Flask for real-time multilingual text conversion
- Integrated text-to-speech using Web Speech API to support pronunciation and auditory learning
- Added interactive practice sessions to help users acclimate to new languages through hands-on learning.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Business Analytics Summer Summit (BASS) | **Scholar**

Carnegie Mellon University – Tepper School of Business

Pittsburg, PA | May 2025

- Selected for a competitive, fully funded program focused on applying analytics to solve business problems through real-world, interdisciplinary collaboration
- Gained exposure to machine learning, data visualization, ethical AI, marketing analytics, and product data science through sessions led by CMU faculty and industry experts from Duolingo, PNC.
- Pitched a sustainability-focused analytics solution for **BNY Mellon**, proposing a middleware system to reduce LLM compute waste by 68% through model rerouting, semantic caching, and green infrastructure planning.

Goldman Sachs Emerging Leaders Series (ELS) | Engineering Scholar

Dallas, TX | Oct. 2024 – Jan. 2025

- Selected to learn about engineering and led the development of winning project during the capstone challenge.

Jane Street | FOCUS

New York City, NY | May 2024

- Participated in a selective program exploring quant finance, and software problem-solving in trading systems.
